

# Mobile Travel Guide – User Guide

(V.1.1, last update 2007-06-28)

Thank you for downloading the AudioTravel Mobile City Guide. This short manual will help show you how to use the application on your device. For more information on how to install the application, please see the Installation Guide available on our website [www.audiotravel.com](http://www.audiotravel.com).

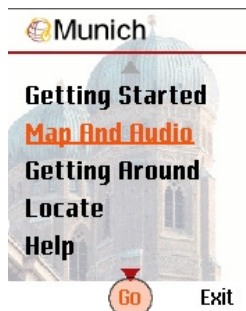

For questions or recommendations please contact us via [mobile@audiotravel.com](mailto:mobile@audiotravel.com).

## Table of Contents

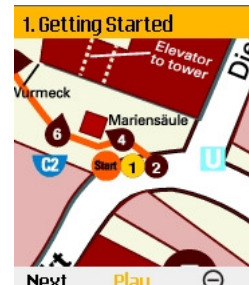

Play Audio .....	1
Navigate Map .....	2
Adjust Volume .....	3
Go to Main Menu .....	3

## Play Audio

Select "Map and Audio" from main menu

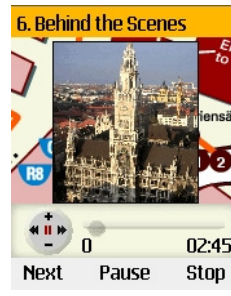

Zoom in until the track numbers appear on the map

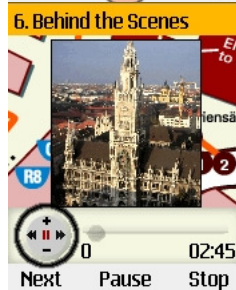

Press "Next" until the desired track number is highlighted

Press "Play"

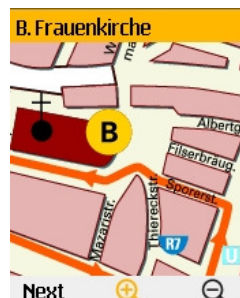

Control **player** - use your joystick or arrow keys as shown on the player icon on your screen

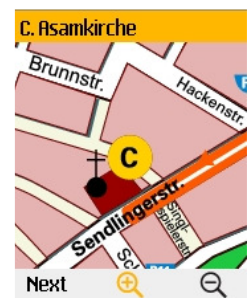

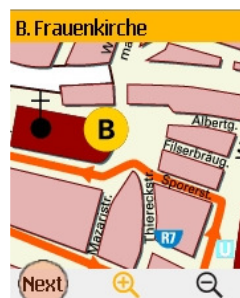

### Navigate Map

**Pan** - the map using the joystick or arrow keys.

**Jump** - to the next element on the map with the Next button.

**Zoom** - There are 3 map levels. Pres the zoom in/out icons that show on your screen.

## Adjust Volume

Use your joystick or arrow keys as shown on the player icon to control the volume (player icon shows up on your screen when audio tracks are selected).

! If your phone has a volume control you may need to adjust it before using the volume control within the application.

## Can't hear this?

Adjust both:

## Go to Main Menu

**From the map** - zoom all the way out until the home icon appears.

**From anywhere** in the application - press 0 on your keypad.
